### Colliers Wreck a Non-Union Workman's Dwelling

#### And Smash the Engine House of the Colliery to Pieces.

A Number of Policemen Struck by Missiles and Badly Injured.—The Trouble Grew Out of the Employment of a Non-Union Man in the Mine.

LONDON, May 10.—A serious riot occurred at the Castledown colliery, near Hartlepool. The trouble grew out of the employment in the mine of a non-unionist named Stockdale. The union men attacked him Saturday evening as he was leaving his work, and would, no doubt, have seriously injured him had it not been for the interference of the police. The rioters then turned their attention to the latter and hurled a shower of stones at them.

A number of policemen were struck by the missiles and badly injured. Stockdale took to his heels and ran to his home. The mob was in strong force, and finding that Stockdale had temporarily escaped them, they rushed to the colliery and smashed the engine house to pieces. Then procuring bags and baskets, they made a descent upon the piles of coal, and every man lugged off as much of the fuel as he could carry. Again and again they returned, and it is said they managed to steal a hundred tons of coal. It was impossible for the mine officials or the police to prevent them from doing just about as they pleased.

Finally some one in the crowd suggested that they attack Stockdale's house. This suggestion met with instant approval and howling and yelling, the mob rushed to the house, and in a very short time it was totally wrecked. The occupants, however, had been warned in time and made their escape before the rioters reached the house. Another in which resided an official of the mine, was set on fire and then satisfied for the time being with the destruction they had wrought, the rioters withdrew. Sunday, however, the mob gathered again and threatened to wreck all the upper works of the colliery. The mine officials parleyed with the mob and finally, by promising to discharge Stockdale, they induced the miners to suspend hostilities.

A Rare Church Ceremony.  
DEPERE, Wis., May 10.—This city was Sunday the scene of a most imposing and a unique service—the coronation of St. Joseph. Bishop Messmer sang pontifical high mass. Thousands of Catholics were present from all parts of the United States. The crowns are made of pure gold, studded with precious stones, all gifts of members of the archfraternity, and their value is placed at \$6,000.

## SUCH IS CHINESE TORTURE.

Foreign Consuls Appeal to Their Governments to Suppress the Cruelty.

SAN FRANCISCO, May 10.—The Shanghai newspapers, which arrived by the China steamer Monday, contain full accounts of the atrocious torture of the Chinese suspected of being the accomplices of Mason in his scheme of rebellion against the government. The poor wretches who were accused have declared that they were simply hired by Mason and knew nothing of his plot.

An English reporter got into the prison and saw one of the tortured men. His legs were paralyzed from torture. He said he had been hung up by the thumbs, flogged, and had paper burned under his nose, but had refused to confess, because he was innocent. Then Yu had his head fastened to his knees by means of a chain. A bamboo was suspended from his iron collar, the stick being stretched across under his knees. His hands were chained behind him. The jailers then placed him with his naked knees kneeling upon chains.

After a long time they put a bamboo across the calves of his legs, upon which two attendants sat till the victim fainted with agony. Although it had been several weeks since this torture, his legs still bore marks of this frightful cruelty, and were without life or motion. The flesh below the knee cap is still raw and inflamed. The legs of another man were broken. Six attendants jumped upon the bamboo until the bones were crushed. Two other men who had just been removed from the torture chamber could not be seen. The foreign consuls of Shanghai have appealed to their governments to suppress this hideous cruelty.

## COUNTERFEIT JURYMEN.

Philadelphia Comes to the Front With a New Sort of Crookedness.

PHILADELPHIA, May 10.—The Times Monday states that, sitting now as members of the grand jury are two men falsely personating two well known and respectable thirty-fourth ward taxpayers. Similar personations have been successfully carried through in the past without exposure. Further revelations are yet to be made. It is impossible to tell at present to what extent a most infamous attack upon the integrity of the jury system has been carried. Nor can it yet be decided what effect the fraud may have upon all the criminal indictments found during the present term of the court of quarter sessions. Michael McKenna, one of Sheriff Connell's summons servers, is most seriously involved. The men personated in the present grand jury are Frank Hoffman, a well-to-do trucker, and Wm. J. Bradley, a time-keeper in Baldwin's locomotive works.

## ON WITH THE DANCE.

Methodist Conference Asked to Permit the Light Fantastic.

OMAHA, Neb., May 10.—The old school Methodist will no doubt be horrified when he learns that a scheme is on foot to allow the religious to mix a little gaiety with their piety. Among the many memorials presented to the Methodist conference Monday was one from the Troy conference, which petitions the general conference to expunge from the discipline section 342, relating to amusements; or, at least, that it be modified so that dancing may be permissible. The memorial is signed by Rev. Wm. Foster, Joel W. Eaton, Wm. H. Hughes, John W. Thompson, E. P. Stevens, F. E. Sawyer and several others, all of New York. Bishop Foster, of Boston, approves the movement and has given it his official sanction and will, without doubt, advocate its adoption. The memorial is now in the hands of the committee on discipline, to whom it was referred.

## ANGRY WATERS.

### The Great Morganza Levee, on the Mississippi, Gives Way.

#### It is the Largest Levee on the River If Not in the World.

The Result Will Be the Inundation of Ten Counties—Another Levee on the Mississippi Also Broken—An Immense Loss Will Be the Consequence.

NEW ORLEANS, La., May 10.—The Morganza levee, in Point Coupee parish, right bank of the Mississippi, the largest in the state, if not in the world, gave way Monday night as per report sent in by train dispatcher of the Texas and Pacific railroad. This break will cause immense loss, as the water will extend over the great middle sugar belt, and down into the Teche country. No particulars of the disaster are obtainable. The water will probably flood some ten parishes.

Vicksburg, May 10.—The situation is ugly, not to say critical, at many points, river men, in view of the latest bulletins, look for at least a foot or more of water at this place. Rain and considerable wind Monday and heavy rains last night in the Delta. The prospect of planting in the low lands of this county is now considered hopeless.

NEW ORLEANS, May 10.—The river here at 6 p. m. marked 16.7 on the government gauge, being six-tenths below the highest record, that of 1890. Heavy showers of rain fell last night and to-day from Vicksburg to the Gulf, and at many points accompanied by severe wind and hail. The river to-day rose one-tenth at all points from Greenville to Vicksburg, one and a half at Baton Rouge.

GREENVILLE, Miss., May 10.—At about 6 o'clock Monday morning the levee at Brook's mill, on the Arkansas side of the river, twenty-five miles south of Greenville, gave way after strenuous efforts to hold it had proved futile.

At 2 p. m. the crevasse was 350 feet in width, with the water rushing through at a depth of six feet. The levee was eight feet high. The water flows directly into Otto bayou, and thence into Bayou Marin. About seven thousand acres of Arkansas land already planted in corn and cotton is inundated, while that section of Louisiana near Bayou Marin embraces a vast amount of lands in cultivation that will be flooded.

It is stated by those acquainted with the geography of the country that the levee will prevent the water from reaching the Tensas basin. The labor in the flooded territory is badly demoralized, and the government fleet here has been appealed to by the citizens of the afflicted district for assistance. The levees on the Mississippi side are all intact and in good condition, and we feel reasonably sure that no break will occur on this side.

## TORNADO IN ARKANSAS.

Monastery Buildings and Dwellings Blown Down and Two Persons Fatally Injured.

MORRILLTON, Ark., May 10.—A tornado passed southwest to northeast near this place at 6 o'clock Monday evening, accompanied by a heavy rain. Reports have come in showing that there was great destruction of property, and that two persons were fatally injured. The track of the storm was in some places a mile wide, and timber, fences and outbuildings were prostrated. The greatest damage was done to the Catholic monastery at Marienstadt, three miles north of here, where the church and monastery buildings were destroyed. They were valued at \$12,000. Near there Matthews Brill's house was blown down and he and his children received injuries thought to be fatal.

## MARVELOUS NERVE

Displayed By a Man Who Was Shot Near the Heart.

PORTLAND, Ind., May 10.—John Ferris was shot at 4 o'clock Monday afternoon by Theodore Thorp, during a quarrel. The ball, a 32-caliber, struck Ferris in the left breast, an inch to the left of the heart, and but for striking a rib would have produced instant death. After being shot Ferris displayed wonderful nerve. He took the revolver from his assailant, put it in his own pocket, and holding his finger in the wound to prevent the flow of blood, walked six squares to a doctor's office. During the excitement Thorp made his escape, but the officers are in hot pursuit. The trouble was the outgrowth of an old feud which has existed between the Ferris and Thorp families for some time.

## FEARED A CYCLONE.

It Didn't Come, But the Roof of the Cave Fell in on Them.

ANTHONY, Kan., May 10.—William Wilkins, colored, his wife and children, entered their cyclone cave Sunday night, fearing a cyclone. The heavy rains of the past three days washed away the foundations of the roof, and at 1 o'clock Monday morning the roof fell in, burying the family. Wilkins managed to crawl out from under the mass of mud, and brought neighbors to the rescue. The five children were taken out dead. Wilkins and his wife are badly hurt.

## The First Public Hanging.

EVANSVILLE, Ind., May 10.—The owners in the Lander, Woolly and Gough mines at Booneville, Warrick county, and those of the Chandler district, have decided that hereafter they employ miners by the day, and fix the rate of wages at \$2. This is their answer to the men who struck three days ago for an increase of 10 cents per ton.

## BURKING.

A Negro Contracts to Supply a Woman's Dead Body.—He Then Proceeds to Kill Her.

CAMDEN, N. J., May 10.—A horrible murder was brought to light Monday morning by the discovery of the body of Lydia Ann Newby, colored, lying on the floor of a room in her home at Sixth street and Kaighns avenue, this city. The head was crushed in and evidence of a terrible struggle was visible in the room. A bloody hatchet was found near the house, and this is undoubtedly the weapon with which the deed was committed. James R. Moulton, also colored, with whom the woman had been living, has been arrested on suspicion of being the murderer. Police justice Paul received information this afternoon, which if confirmed, shows the act of the murderer to have been one of the most fiendish on record. It is to the effect that Moulton had contracted with parties in Philadelphia to sell the body of the woman. After making arrangements as to the price to be paid for the corpse, method of delivery, etc., the fiend in human form is said to have deliberately slashed in the skull of his victim with a hatchet. The police are now running out this clue. Although he has not as yet confessed, from the conflicting stories he has told and from the blood stains found upon his hands and clothing, there is hardly a doubt that Moulton murdered the woman. His motive for the crime was to gain possession of some six or seven hundred dollars that she recently received from the sale of some property here. Moulton is an exceedingly ignorant, brutish negro, and when arrested was very drunk.

## NICE PLACE TO LIVE.

Wyoming Roads Impossible for Freight for Two Months, and People Are Out of Necessaries.

BUFFALO, Wyo., May 10.—Snow, which ceased falling Friday morning, recommenced to-night, and still falls. The roads have been impassable for freight teams for two months. Two thousand pounds of merchandise are stuck in the mud between here and Gillette. Not a pound of sugar or coffee is for sale in Buffalo, and in Fort McKinney the commissary is nearly exhausted. Unless snow and rain cease soon, and the roads dry up, the people will be living on potatoes, flour and beef only. The stage from Powder river into Crazy Woman was two days late, and the driver at the latter place started south in search of it, and found the stage about ten miles south, and off the road. The driver had lost his way in the storm, and had turned the horses loose to graze on the sage brush, expecting to hitch up when the weather cleared and he could locate his position. After the storm had ceased he had gone in search of the road, becoming snow-bound, in which condition he was found, groping his way over the hills. There were no passengers on the stage.

## STOLE THE CROSS.

Sensational Act Growing Out of a Church Controversy.

ERIE, Pa., May 10.—Church circles were greatly agitated Monday evening by reason of the robbery of St. Paul's Episcopal church of its handsome and costly processional cross. The cross was introduced on Palm Sunday in memory of three deceased members of the supplied choir, one of them the son of Bishop Spalding, of Colorado. There were other memorials introduced at the same time. On Easter Sunday Rt. Rev. Bishop Whitehead, of Pittsburgh, blessed the cross and other memorials. Some of the low church element took grave offense at the tendency to the high church. Last night the church was broken into and the cross was carried away. The high-handed act created a most profound sensation when the robbery was discovered to-night.

## FIVE OF THEM.

A Father and Four Sons Poisoned, and the Physician Says Eating Rice Caused It.

GALLIPOLIS, O., May 10.—Mr. James M. Mills and sons, Edward, Ira, Harry and Fletcher, residing five miles from here, had a miraculous escape from death late Sunday night. About 12 o'clock in the night they were all taken ill, vomiting violently and suffering intense pains in the stomach. A physician was immediately summoned, and pronounced it a case of poisoning, and it was only by irksome work that he alleviated their sufferings, and thus saved their lives. Mr. Mills had cooked rice for supper, of which they all partook heartily, and from which the physician says they were poisoned.
